

Squat Tempelhof on the 20.06.09

Handout for the public mass-squat

Squat Tempelhof follows an open concept of action. For everyone there should be the possibility to participate in the action.

Basically: The grounds are huge, at least 8 kilometers of fencing are available. It is very important to bear this fact in mind. Should the Senat decide, to disturb the action with the help of the police, they are left almost with as little as the possibility of incriminating the squatters in controllable situations.

Therefore, the following proposal: aim of the action is the terrain, not the police. Get cleverly out of the way of confrontations.

The concept of the action will include very different forms of participation, among them for example:

- You don't want to go onto the terrain, but want to be in the area and maybe cause distraction outside the fence.
- You would go onto the terrain, but rather only when it is already accessible. But you would also cause distraction.
- You simply want to go onto the terrain.

In preparation of your concept of action it would be sensible to locate yourself somewhere in this list.

However the concept also allows for people just doing their own thing.

Besides, the following points are going to contribute to the success of the action:

- forming of reference groups, but it's not a must, everybody can join
- choice of outfit - "If you are wearing a black hoody, you are more likely to get into trouble"
- answering yourself the question: "how do I actually get over the fence, what do I need to this."
- having precisely set watches on you
- thinking about the time after the squatting. "What do I want to have on me, what do I want to do there, what do I want to drink and eat?"

For the initiative there will be an infrastructure around the terrain. Details will follow over time. Please don't get nervous if some pieces of information have not been made known, not even shortly before the action, that is part of the concept. However you will be told everything that is important, either on the internet or directly on site.

Also, please make time for the whole day.
